1. The following is an examiner's statement of reasons for allowance: Kurimura et al., as modified, lack the limitation of the second portion which includes one of the inner ring race, the outer ring race, and the rolling surfaces having no formed film made of manganese phosphate. Examiner notes that the table in figure 5 reveals that the oil film is disposed on both the inner and outer rings. Since the oil film is described as being between the rolling elements and the raceway surfaces, it is maintained that a portion of the film rests on the rolling surfaces. Accordingly, it is agreed that Kurimura et al. alone or as modified, fail to include the no formed film limitation. Consequently, claims 1-12 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
